

Downloading Remke App

Remke is using a new type of app that does not require a download from an app store. This type of app, called a progressive web app, takes up less space on your device, is more secure than a traditional app, and does not require any periodic updates.

Please delete the old Remke Markets app from your phone. It might look like this:

How to Get the New Remke App

1. Scan this QR code with the camera on your phone
2. Select the link that pops up (storebyweb.com)
3. You should see a list of all the Remke store locations
4. Scroll through the list until you see your store
5. Select 'Make This Your Home Store'
6. Then follow the directions below to add the app to your phone

APPLE iOS DEVICES:

1. In Safari, make sure the website is visible on your phone
2. View prompt to install app

3. Tap on the share icon on your **PHONE** 
 - a. If prompt to install app does not appear, tap on the share icon and follow the next steps
4. Scroll down to select ADD TO HOME SCREEN

5. Select ADD

ANDROID DEVICES:

1. In Google Chrome or Mozilla Firefox, make sure the website is visible on your phone
2. View prompt to install

3. Tap INSTALL from the on-screen prompt
4. Select INSTALL AGAIN from the confirmation message
5. If the prompt does not appear:
 - a. Google Chrome
 - i. Open Chrome by selecting the three dots icon in the top right corner
 - ii. Select INSTALL APP from the menu
 - iii. Select INSTALL from the prompt that appears
 - iv. App will be added to any empty screen
 - b. Mozilla Firefox
 - i. Open Firefox by selecting the three dots icon in the bottom right corner
 - ii. Select INSTALL from the menu
- iii. Select ADD AUTOMATICALLY to allow device to automatically place the app on an empty screen
OR touch and hold the icon that displays to add it to a specific screen
